PSC SC
MAIL / DMS

I am emailing you to express my views and support of the following:

Schedule and allow public participation in workshops on net metering (Docket #2005-385-E)

- Raise the 100 kW net metering cap on non-residential systems to ~2MW
- Raise 0.2% cap on total allowable net metered capacity to ~2%
- Eliminate resetting of customer's net metering credit balances
- Allow for net metering of community solar systems

It's time SC gets on board. It simply makes sense.

Thank you,
Leila Ross
